Portfolio: albert-jd7470.github.io/jd_portfolio

Professional Summary

Aspiring and passionate Flutter Developer with a strong foundation in mobile application development, UI/UX design, Dart, Firebase, and REST API integration. Seeking an entry-level opportunity to build scalable, cross-platform applications while continuously learning and contributing to organizational success.

Technical Skills

Languages: Dart, Python, C++, PHP, HTML, CSS
Frameworks: Flutter, Django
State Management: Provider, GetX, Bloc
Databases: Firebase Firestore, Firebase Realtime Database, SQLite
APIs & Tools: REST API, JSON, Firebase Cloud Functions
Development Tools: Android Studio, VS Code, Git, GitHub
UI/UX: Figma (Wireframes and Prototypes)

Professional Experience

Software Developer Intern
SMEC Labs, Kaloor, Ernakulam

- Developed and deployed cross-platform mobile applications using Flutter for Android and iOS.
- Designed responsive and visually appealing user interfaces using Flutter widgets and Material Design.
- Implemented state management using Provider, GetX, and Bloc for efficient data flow.
- Integrated RESTful APIs and handled real-time data using JSON, HTTP, and Firebase Firestore.
- Implemented secure authentication using Firebase Authentication with role-based access.
- Integrated Google Maps API and Geolocator for location-based features.
- Managed offline data storage using SQLite and SharedPreferences.
- Followed clean code principles and version control using Git and GitHub.

Projects

FreshMart – Grocery Shopping App
- Developed an online grocery shopping application using Flutter.
- Enabled users to browse groceries including fruits, vegetables, dairy, and household products.
- Designed a clean and modern UI with intuitive navigation.
- Ensured compatibility across multiple platforms and devices.
- Provided ongoing support and maintenance for application stability.

Foodie – Online Food Delivery App
- Built a food delivery application using Flutter and Dart.
- Integrated dummy REST APIs to fetch menu items and pricing data.
- Implemented Firebase Authentication for secure login and signup.
- Used GetX for state management, navigation, and performance optimization.
- Designed responsive layouts for multiple screen sizes.
- Ensured modular, reusable, and maintainable code structure.

Education

Bachelor of Science in Computer Science
School of Technology and Applied Science
Graduated: March 2025

Certifications

- Flutter Developer Certification
